## Profile

I am an aesthetician with over 6 years of experience in the field. I have a passion for helping people look and feel their best, and I specialize in skin care treatments. I am knowledgeable about a variety of skin care products and procedures, and I love working with clients to help them achieve their goals. In my current position, I work as an independent contractor at a spa, where I provide facials, waxing services, make-up application, and more. Prior to this role, I worked as an aesthetician at a day spa for 4 years. In both positions, I built strong relationships with clients through providing high-quality service and individualized attention
