Profile

I am a Child Psychologist with years of experience in the field. I have worked with children of all ages and have helped them overcome various challenges. I am passionate about my work and strive to provide the best possible care for each child I work with. I am knowledgeable in the latest research and techniques in child psychology, and use this knowledge to help children reach their full potential.

Employment History

Child Psychologist at Boston Children's Hospital (MA)

Apr 2022 - Present

- Successfully treated 85% of patients with behavioral issues.
- Successfully reduced anxiety in 70% of pediatric patients.
- Identified emotional issues in 50% of cases where a child had been referred for physical problems.
- Correctly assessed and diagnosed ADHD in 80% of children who were referred for evaluation.
- Was able to help 75% of parents understand their child's behavior after completing treatment.
- Able to improve family relationships in 60% off all families that I saw for therapy.

Clinical Child Psychologist at The Child Mind Institute, Inc. (NY)

Jul 2019 - Mar 2022

- Provided individual therapy to 15 children aged 3-12 years old diagnosed with Anxiety disorders, ADHD, and ODD.
- Led 8 parent training groups on positive discipline strategies for parents of toddlers.
- Developed and implemented a distinctive treatment program which decreased acting out behaviors by 35% in school age children with conduct disorder.
- Wrote 5 research papers that were published in well respected psychology journals such as the Journal of Abnormal Psychology and the American Journal of Psychiatry.
- Presented my findings from original research studies at 4 national conferences including the APA annual conference..
