PROFILE

I am a Construction Project Engineer with over 5 years of experience in the construction industry. I have experience managing projects from start to finish, as well as coordinating with other engineers and contractors to ensure that projects are completed on time and within budget. I am proficient in using various project management software programs, and have a strong background in construction principles and practices. I am also an effective communicator, both written and verbally, which allows me to effectively communicate with all members of a project team.

EMPLOYMENT HISTORY

● Construction Project Engineer II at B.L. Harbert International, KY

May 2022 - Present

- Successfully managed and completed construction projects within budget and ahead of schedule.
- Successfully negotiated with contractors to save company money on construction projects.
- Actively participated in the planning and design of several successful construction projects.
- Successfully oversaw all aspects of project management for multiple complex construction projects.
- Coordinated with various team members and stakeholders to ensure timely completion of assigned tasks.

● Construction Project Engineer I at McDonough Bolyard Peck, Inc., KY

Sep 2017 - Mar 2022

- Led a team of 3 engineers and 2 construction managers in the development of an \$8 million roadway reconstruction project.
- Completed design and permitting for a \$5 million commercial office building renovation project.
- Managed construction activities for a \$6 million hotel renovation project.
- Successfully completed design and construction administration for multiple residential projects totaling over 50 units.
- Demonstrated expertise in value engineering to save clients 10-15% on total project costs without sacrificing quality or scope.
