PROFILE

I am a highly experienced diesel technician with over five years of experience working on engines and other mechanical systems. I have an in-depth knowledge of how these systems work and how to troubleshoot them when they aren't functioning properly. I am also skilled at performing preventive maintenance on these systems to help keep them running smoothly. In addition to my technical skills, I have excellent customer service skills and can effectively communicate with customers about the repairs that need to be made.

EMPLOYMENT HISTORY

● Diesel Technician II at Hertz, NC

Mar 2022 - Present

- Completed training on troubleshooting and repairing electrical systems.
- Learned how to inspect, repair, and replace diesel engine components.
- Trained in the use of diagnostic equipment to identify problems with engines.
