

# Guyla Goeckeritz

Facilities Systems Engineer

## Profile

I am a Facilities Systems Engineer with over 5 years experience in the industry. I have worked on a variety of projects, both big and small, and have gained a vast amount of knowledge in the field. My skills include facilities management, project management, drawings and specifications review, construction administration, operation and maintenance support services, as well as feasibility studies. I am a highly motivated individual who is always looking for new challenges to take on. I thrive in fast-paced environments and enjoy working with others to get the job done right.

## Employment History

### Facilities Systems Engineer II at Honeywell, NY

Apr 2022 - Present

- Implemented a new HVAC system that resulted in an annual savings of \$120,000 for the company.
- Developed and executed a plan to upgrade the lighting infrastructures throughout all facilities which saved an additional \$50,000 per year on energy costs.
- Reduced overall water usage by 20% across all buildings through leveraging new technology and best practices.
- Increased operational efficiency of facilities by 15% due to improved system integrations.
- Drove down maintenance costs by 10% annually through implementing a preventative maintenance program.

### Facilities Systems Engineer I at Johnson Controls, NY

Sep 2017 - Mar 2022

- Reduced downtime of system by 35% through improving preventative maintenance schedule.
- Implemented changes that resulted in 20% reduction in energy consumption.
- Achieved 100% up-time for critical systems during 3 month long construction project.
- Projected and managed budget for \$3M facilities expansion project.
- Developed new training program that reduced on-boarding time of new staff by 50%.

## Certificates

### Certified Facilities Manager (CFM)

Jan 2021

### Certified Energy Manager (CEM)

Jan 2020
