## PROFILE

I am a Healthcare Project Manager with experience leading large-scale, complex projects in the healthcare industry. I have a proven track record of success in managing all aspects of project life cycles, from initiation and planning through execution and closure. I excel at developing detailed project plans and ensuring that all stakeholders are kept informed throughout the duration of the project. Additionally, I have a keen eye for identifying potential risks and problems early on, which allows me to take proactive measures to avoid or mitigate them. My goal is always to deliver successful projects that meet or exceed expectations while maintaining budget constraints
