CA 93638

Education

Bachelor's Degree at University of California, Santa Barbara, CA

Aug 2015 - May 2019

While I was studying to be a medical coder, I learned about the different coding systems and how to use them. I also gained experience in working with Electronic Health Records (EHRs), which is essential for coding correctly.

Profile

I have over three years of experience as a medical coder. In my previous role, I was responsible for reviewing medical documentation and assigning appropriate codes using the CPT, HCPCS, and ICD-10 coding systems. I have a detailed understanding of both inpatient and outpatient coding guidelines. My strong analytical skills allow me to quickly identify errors in medical documentation and make corrections accordingly. Thanks to my efficient workflows, I am able to meet deadlines even when working with large volumes of data.

Employment History

Senior Medical Coder at Company 1: CodingComply, LLC

Feb 2022 - Present

- Coded 1,000 patient records within the first month of employment.
- Achieved 99% accuracy for coding diagnoses and procedures.
