3100 Gentilly Court, Montgomery, AL 36116

I have over eight years of experience as a motion graphics artist. I specialize in creating 2D and 3D animations, as well as effects for video and web projects. My skills include storyboarding, character design, animation, compositing, and special effects. I have worked on a variety of projects ranging from commercials to music videos to explainer videos. In each project, my goal is to tell the client's story in an engaging and visually appealing way.
