Profile

I have worked as a physical therapist for over 5 years. I have experience working in both inpatient and outpatient settings. I am passionate about helping people regain their quality of life after an injury or illness. I specialize in orthopedic rehabilitation, but am also experienced in working with patients who have neurological conditions. In my most recent position, I oversaw the development and implementation of a new outpatient program for stroke survivors.

Employment History

**Outpatient Orthopedic Physical Therapist at Advantage Rehab and
Therapy Services Alabama**

Apr 2022 - Present

- I successfully helped a patient recover from a debilitating injury and return to an active lifestyle.
- I developed and implemented an innovative physical therapy program that resulted in significantly improved patient outcomes.
- I have extensive experience working with patients who have had traumatic brain injuries, stroke, or spinal cord injury, and have been able to help them regain functionality.
- Godwin's accomplishments include the following: •Voted number one Inpatient Physical Therapist by peers two years in a row •Successfully rehabbed over 1,000 shoulder patients back to pre-injury status •Consistently produce excellent clinical results as evidenced by high Patient Satisfaction Scores on Press Ganey Surveys.

Inpatient Acute Care Physical Therapist at Bivins Pointe Alabama

Sep 2017 - Mar 2022

- Achieved a 97% success rate in patients completing rehabilitation.
- Developed and implemented new therapy methods for better patient outcomes.
- Successfully helped 3500+ regain movement and improve quality of life.
- Led team of physical therapists that increased productivity by 25%.
- Decreased number of chronic pain cases by 20%.
