

Kellijo Houke

Programmer

Profile

I have half a decade of experience as a programmer. I specialize in java programming and have worked on web-based applications, client-server applications, and mobile apps. In my previous positions, I was responsible for the full software development cycle including requirement gathering, design, coding, testing, deployment & maintenance. My work has always been greatly appreciated by my employers owing to its high quality and attention to detail.

Employment History

Application programmer at Google (California)

Mar 2022 - Present
