📞 634-324-4416
📍 5788 Cane Ridge Road, Nashville, TN 37013

EDUCATION

Bachelor's Degree in Business at University of Washington, Seattle, WA

Sep 2014 - May 2019

Over the course of my studies, I became intimately familiar with scrum master practices and how to apply them in real-world scenarios. This knowledge has helped me hone my skills as a problem solver and project manager.

PROFILE

I am a highly experienced and certified Scrum Master with more than 3 years of experience in various industries. I have successfully implemented scrum in small, medium and large projects with distributed teams across multiple locations. I am an expert at leading agile transformation initiatives and have helped organizations achieve their business goals through effective application of scrum principles. My superb communication, stakeholder management and team building skills have enabled me to deliver successful projects time after time.

EMPLOYMENT HISTORY

Scrum Master at Scrum Master Co – Illinois

May 2022 - Present

- Led a team of 8 developers in delivering a new software application on time and under budget.
- Implemented Scrum methodology for a team of 12, resulting in increased productivity by 25%.
- Defined and implemented the processes and procedures necessary to ensure compliance with industry regulations.
- Trained 5 project managers in Agile/Scrum principles, practices, values & ceremonies leading to successful Sprints.
- Mentored 3 junior scrum masters on techniques for effectively facilitating sprints & tracking progress against goals.

Agile Coach at The Scrum Master – Florida

Sep 2019 - Apr 2022

- Successfully facilitated 2 scrum of scrums, across 4 development teams totaling 20+ members.
- Successfully launched an Agile Release Train with 12 Scrum Teams. This was the first time the program had used SAFe.
- Collaborated with Program and System architects to break 8 large features into smaller pieces that could be delivered incrementally by the Development Team.
- Coached a new Product Owner who took over for an departingPO on how best to groom, prioritize, and manage their product backlog according to Scrum/SAFe practices.
- Worked closely with our Chief Product Owner (CPO) in developing and maintaining our portfolio backlog per sprint cycle while also adhering strictly to budgetary constraints from senior leadership.
