French

PROFILE

Medical Sonographer with 4+ years of experience providing diagnostic patient care services. Managed a caseload of up to 25 patients per day, while maintaining high quality and accuracy standards. adept at performing sonographic examinations using independent judgment to identify, record and appropriately evaluate anatomical landmarks, pathologies and owner concerns. Proven skills in equipment operation and maintenance as well as strong computer proficiency.

EMPLOYMENT HISTORY

● Diagnostic medical sonographer at Mayo Clinic (Rochester, MN)

Mar 2022 - Present

- I completed over 500 diagnostic ultrasound procedures in a high-volume outpatient setting.
- I performed ultrasounds on patients of all ages, from newborns to the elderly.
- I gained experience in multiple ultrasound modalities, including 2D imaging, Doppler studies, and 3D/4D scans.
- I was recognized by superiors for my efficiency and accuracy in completing examinations.
- On numerous occasions, I assisted physicians with biopsies and other interventional procedures.
- I provided support to patients and family members during emotionally difficult exams.

● Cardiovascular technologists, including vascular technologists at Massachusetts General Hospital (Boston, MA)

Aug 2018 - Jan 2022

- Trained new staff in sonography techniques and operation of equipment.
- Led sonographers in creating more efficient workflows that increased productivity by 15%.
- Implemented a quality control program that reduced errors by 10%.
- Completed over 1,000 diagnostic imaging studies annually with high patient satisfaction scores.
- Actively sought continuing education opportunities to stay abreast of advancements in the field.
- Assisted physicians in performing interventional procedures such as biopsies and drainage.
