Avianna Scurti

System Administrator

Profile

I am a System Administrator with over 3 years of experience. I have gained an in-depth understanding of how to maintain and administer systems through my work experiences. My responsibilities include installing, configuring, troubleshooting and maintaining system software and hardware components according to established policies and procedures. In addition, I also provide technical support for users by researching answers to their questions or resolving their problems.

Employment History

System Administrator at ABC Corporation – California
Feb 2022 - Present

- Led the successful implementation of a new system that increased productivity by 15%.
- Developed and implemented an automated monitoring system that reduced downtime by 30%.
