Profile

I am a Welder with over 5 years experience in the industry. I have worked on a variety of welding projects, ranging from small repairs to large-scale construction projects. I have an excellent eye for detail and take pride in my workmanship. I am able to work independently or as part of a team, and always adhere to safety regulations. My goal is to provide high-quality welds that meet or exceed the expectations of my clients.

Employment History

Welder, Senior at Air Products and Chemicals, Inc., PA

Apr 2022 - Present

- I successfully completed a 4-year welding apprenticeship.
- I have 2 years of experience as a certified welder.
- I hold an AWS Certified Welder credential.
- In my previous job, I increased production by 20% through process improvements that I implemented.
- On one occasion, I was able to complete a rush order for a customer in half the expected time frame without sacrificing quality or safety.
- After being employed at my current company for 6 months, I was promoted to Lead Welder due to exceptional performance and Welding ability.
